

Semester _____

Student ID # _____

Dear Recipient of VA Benefits:

York College allows the veteran or dependent who is enrolled in a degree program to defer payments until he/she receives reimbursement from the Veterans Administration. It is your responsibility to know under which program your benefits will be received and to follow the self-certification process that is necessary.

The following conditions will apply:

1. All new, transfer and readmit students must pay deposits prior to registering for classes.
2. Registration must be certified by the Records Office.
3. The difference between what you expect in VA benefits and the total amount due is expected to be paid on or before the due date of the bill.
4. Upon receipt of your VA payment, you are expected to forward that amount to the Business Office until your balance is paid in full.
5. The total semester bill is due and payable prior to the end of the semester.
6. The statement of understanding is required to be submitted each semester prior to the due date of the bill.

It is understood that in the event you do not receive the anticipated VA benefit payments, you are responsible for the payment. In the event of nonpayment of all charges on the student account and eventual placement with a collection agency, by signing this agreement, you agree to pay the percentage-based fees charged by the agency, not to exceed 33% of the debt owed.

If you have any questions, please contact the Business Office at 717-815-1470.
